

AFB PULL UP PROGRESSION APPENDIX

Program Description

The 'Pull Up Progression Tutorial' package includes:

1. Floor 2 Fly Warm Up
2. Pull Up Progression Tutorial
3. Exercise Library

Pull Up Progression Tutorial

The tutorial will begin with our '*Floor 2 Fly*' warm up understanding correct engagements & specific movement patterns for when we fly on our AFB straps.

The 'pull up' program focuses on creative skill progressions to safely achieve the strict pull up skill, overall body strength and improved physical health. We recommend achieving 5 *strict* pull up skills before flying onto the next progression on our AFB straps.

Pull Up Progression Exercise Library

The exercise library is a breakdown of the tutorial, including:

- Skill Progression
- Coaching cues
- Reps
- Flights
- Rest
- Muscular Engagements
- Benefits

Equipment

- AFB Straps
- Safe stable pull up bar

The best way to approach this program:

1. First, carefully read through the exercise library to get a full understanding of the program to be completed.
2. Once you have an understanding of the program then watch the tutorial video and refer to the exercise library to get the correct demonstration of the aerial skills to be completed.
3. Combining both the exercise library and tutorial video will provide all the essential information to successfully complete the 'pull up' program.

The 'pull up' tutorial has been designed to interlink with existing AFB programs to teach you creative aerial fitness skills & improve your overall healthy lifestyle.

Appreciation of your achievements

During your AFB training journey please share your successful & progressional aerial fitness stories with us through photos and videos.
