

The aerial exercises provided by AFB (<https://www.aerialfitnessbodies.com>) are for educational and entertainment uses only. Please always take serious safety precautions and check your straps before and after every workout. Exercise in all categories is not without risk and may result in injury; included but not limited to: risk of injury, aggravation of pre-existing conditions, over exertion; including muscle strains, abnormal blood pressure, fainting, heartbeat disorder; very rare cases heart attack. To reduce risk of injury before your AFB training programs please consult your doctor for appropriate exercise medical prescriptions.

The educational exercise workouts are not intended as a substitute for medical consultation. AFB & (<https://www.aerialfitnessbodies.com>) disclaims any liability form and in connection with these programs. As with any exercise program, if at any stage of your workout you feel physically uncomfortable, faint or dizzy especially upside down, stop immediately and consult your doctor.
